

Boarding

1. Feline patients need to have a current exam, be up to date on vaccinations, and test negative on the FeLV/FIV (feline leukemia and immunodeficiency virus) test to be approved for boarding.
2. The client must fill out a boarding intake form and be informed of the cost for services.
3. Canine patients must be up to date on an exam, Rabies, and Bordetella (unless the vaccines are not recommended by the DVM)
